

Large Workstation

WS7700 / 14586

Features and Benefits

Get more done with our WS7700 Workstation. This sturdy desk has a place for computers, studio monitors, MIDI controllers, rackmount components, and recording and mixing equipment, making it easy to keep gear organized and ready to use. A slide-out keyboard tray and an elevated platform for a monitor and speakers increase work space and enhance operating comfort. In addition to a spacious desktop that supports a wide range of mixers and keyboard instruments, two 3U shallow racks provide a space for rackmount components totalling 6U. To top off this efficient and orderly setup, a mobile device stand and two computer holders keep delicate electronics safe and conveniently within reach.
