

Duo Flip-It!® Guitar Stand

GS7253B-B / 12513

Features and Benefits

The Duo Flip-It!® Guitar Stand holds two guitars at once and is one of the safest stands on the market, providing two guitar protection methods. The upward-angled lower yoke prevents forward movement of the guitar. The upper Flip-It!® yoke operates ergonomically with one hand, flipping down when a guitar is placed in the stand and automatically springing back up to lock the neck in place, preventing tips and falls. EVA foam padding at the contact points protects guitar finishes. The stable tripod base folds down and the lower yoke detaches, enabling compact storage and transportation.

Specifications

Application: Holds 2 guitars

Padding: EVA rubber

Leg Housing: Stamped

Tubing: 19mm / 22mm

Color: Black
