

Upper Rocker-Lug with 12" Low Profile Base

MS8312 / 12569

ON-STAGE ORIGINAL M20 THREADED

Features and Benefits

A new choice in straight stands, our Rocker-Lug allows the upper mic shaft to tilt up to 40° off of vertical, eliminating the need for a boom arm in many applications. The versatile Rocker-Lug slides effortlessly into the clutch for straight-stand applications. A sturdy 10 lb 12" base keeps the stand firmly in place.
