

French Horn Stand

FHS7201B / 13405

Features and Benefits

A classic, sturdy, lightweight A-frame for French Horn. The FHS7201B features heavy-duty 1" x 1" tubing, EVA padding on yoke and backrest, and a "uni-construction" design; which means that there are no parts to lose. The tilt back design, splayed footprint, and rubber feet guarantee stability and protection for your horn.
